# LITTLE INTEREST ON **WASHINGTON MARKET**

Light Demand for Bonds Only

Aside from a light demand for bonds little interest was manifested at to-day's session of the Washington Stock

Exchange.

Mergenthaler Linotype stock was appreciably stronger, the bid being advanced 2½ points to 163 without a sale resulting. Washington Gas stock was also bid up fractionally. Other changes in quotation figures were im-

material.

The bond transactions included \$2,000 worth of Potomac Electric Power consolidated 5's at 1614, a \$500 Capital Traction 5 at 108, and a \$100 Norfolk and Washington Steamboat 5 at 105.

The only sales in the stock list con-ested of American Graphophone pre-ferred. After six-tenths of a share had sold at 140, an odd lot of two shares brought 139.

The Capital Traction Company has declared the regular quarterly dividend of 14 per cent, payable July 1 to stockholders of record June 14. The transfer books will be closed until June 30.

More than 400 bank and trust com-pany officials and employes marched in the preparedness parade yesterday. Practically every one of the financial institutions of the city was represent-ed in this section of the parade.

### ALLIES' ENVOYS MEET: PLAN ECONOMIC WAR

Paris Conference to Evolve Joint Trade Policy.

Trade Policy.

PARIS, June 15.—An allied conference on economic affairs is in session here today. Its main purpose is to evolve a general policy, applicable after the war, to obtain joint trade relations among the allies and prevent a renewal of Germany's commercial expansion in the markets of the allied nations.

The assemblage is for direct interchanse of views among the governments concerned, which are represented by leading members of the cabinet of commerce of all the allies and the ministers of finance of four nations are present. The sessions are secret.

In an address of welcome to the delegates Premier Briand said:

"It is not enough to conquer by military union. There must also be diplomatic and economic union which will bring about intensive development of the material resources of the world, we have to assure economic liberation of the world, to resture healthy commercial methods, and to recover our commercial independence."

In connection with the proposed changes in trade policies, the premier made this significant statement:

"If it is found that ancient errors have permitted our enemies to exercise irreparable tyranny upon the productive forces of the world, you will abandon them resolutely in order to proceed along new lines."

MFTY years ago when the construction of the Canadian Pacific Railway was proposed as a link between the Atlantic and Pacific, nine hundred miles of prairie seemed a greater obstacle than the Canadian Rockies.

But the Canadian Pacific settled the land through which it built its network of tracks.

Today its settlers can supply enough wheat to feed the whole French and

British armics. Winnipeg is a greater grain market than Chicago or Minneapolis and in 1915 its bank clearings were \$1,530,683,124.00.

300 miles of sidings are required by the Canadian Pacific Railway to handle the traffic which passes through Winnipeg.

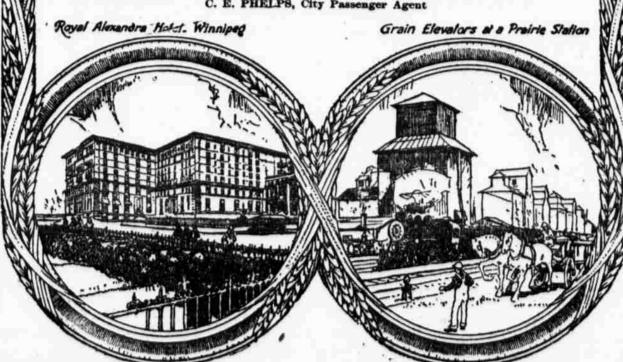

Grain elevators are the landmarks of the Canadian West (today there are 2,775 in the three prairie provinces with capactiy of 123,939,000 bushels).

Under the lead of the Canadian Pacific, mixed farming is making as rapid progress as the cultivation of grain.

The banker or investor desiring to study Canadian conditions by personal investigation cannot omit Winnipeg.

Miss Berberich received the guests in a bower of palms and roses and was assisted by the other members of hericlass, Miss Clara Cusick, Miss Katherine McInerney, and Miss Loretta Fitzgeraid. A buffet supper was served later in the evening.

Are those that do not fluctuate during disturbed conditions of the money or stock markets. First deed of trust notes (first morting ages), well secured on real estate in the District of Columbia, constitute "gilt-edge" investments. They do not depend upon the fluctuations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 upward.
